

TopGrip® material

JokaSafe multi-purpose
grip and protection material

TopGrip® is suitable for any item requiring extra grip. It can be attached to e.g. cotton, fleece, composite (various rags), metal, felt, GORE-TEX®, plastic and polystyrene. TopGrip® is easy to cut, sew, glue or attach to another plastic by welding and seaming. TopGrip® is waterproof, windproof and resistant to oil, chemicals and abrasion. It also protects against blade cuts and cold. TopGrip® by Joka®Safe material is manufactured in Finland, from 100 % cotton and self-manufactured PVC-plastic coatings made from high quality European raw materials.
